# *HOSPITAL STATISTICS*
# *1 APRIL 2008 – 31 MARCH 2009*
# *Volume 1: Programme of Care*

# *Contents*

*Summary*

- In 2008/09  551,098 inpatients were treated in NI hospitals, compared with 538,586 in 2007/08.  Of these, 371,626 (67%) were ordinary inpatients and the remaining 179,472 (33%) were treated as day cases.  This compares with 370,061 ordinary inpatients and 168,525 day cases in 2007/08.

- Overall, there were 7,706 beds available, compared with 7,873 in 2007/08, with an 82% occupancy rate.

- The average length of time spent in hospital (excluding day cases) was 6.2 days.  The average length of time an available bed remained unoccupied was 1.3 days.  On average, 48 ordinary admissions were treated in each available bed open overnight during 2008/09.  Antrim Area Hospital had the highest level of throughput, treating an average of 99 patients per available bed.

- The highest levels of inpatient activity were accounted for by Belfast City Hospital (15%), Ulster Hospital (12%), Antrim Area Hospital (10%), Royal Victoria Hospital (10%), Altnagelvin Hospital (9%) and Craigavon Area Hospital (9%).

- General Medicine, Mental Illness and Geriatric Medicine had the highest allocation of available beds with 19%, 13% and 12% respectively.

- In 2008/09 there were 1,565,497 outpatient attendances in NI hospitals, compared with 1,565,123 in 2007/08.  Overall, in 10.8% of scheduled attendances the patient did not attend and 10.1% of scheduled outpatient appointments were cancelled by the hospital.  Non-attendance by patients was worse for review attendances (12.3%) than for first attendances (7.4%).  Similarly, hospital cancellations were higher for review attendances (12.0%) than they were for new attendances (5.2%).

- At the end of March 2009, 10,505 people were on the ordinary admission waiting list, 22,158 were waiting for day case treatment and 68,942 people were on the outpatient waiting list.

- The total number of attendances at NI Accident & Emergency Departments in 2008/09 was 732,022.

- Four providers: Antrim Area Hospital; Royal Victoria Hospital; Ulster Hospital and Craigavon Area Hospital accounted for 39% of attendances at A&E departments.

- There were 346,725 patient journeys in NI during 2008/09.  27% of these were classed as 'Emergency', 10% as 'Urgent' and the remainder (62%) as 'Non-Urgent'.

- Private patients in NI completed 3,557 finished consultant episodes during 2008/09 (compared with 3,523 in 2007/08).  18% of these patients were treated in Altnagelvin Area Hospital.

- At the end of March 2009, of the 57,494 staff based in Hospital Trusts, 36% were in the 'Nursing and Midwifery' category.  Belfast HSC Trust accounted for 34% of all Hospital Trust staff.

- There were 25,994 births in NI hospitals during 2008/09. Less than 1% of these were still births.

## *Index to Table Footnotes*

1.   The data for individual hospitals on certain indicators (e.g., 'Average Available Beds') will not always sum to the Provider total or the overall NI total due to rounding. In addition, certain indicators (e.g. 'Throughput') have been derived from unrounded figures for greater accuracy. They may therefore differ slightly from values obtained through using rounded figures in the formulae.

2.   The calculation of average length of stay assumes that patients spend the entire length of their stay in hospital within the same specialty.  On occasions, patients may be transferred between specialties during the same stay in hospital.  In these circumstances, such transfers may slightly skew the average length of stay at a specialty level.

3.   Discharge and Death figures for Belfast City Hospital and Ulster Hospital include 34,498 and 12,792 Renal Dialysis treatments respectively. Discharge and Death figures for Antrim Area Hospital include regular night Renal Dialysis treatments; however they were unable to provide the number of treatments.

4.   Due to inconsistencies in data supplied, Percentage Occupancy and Turnover Interval figures for Gransha, NWIH, Young People's Centre, Lagan Valley PNU, Holywell and Whiteabbey PNU have been set to 100% and 0.0 respectively.

5.   Discharge and Death figures for the following hospitals: Daisy Hill; Ulster; Mid Ulster and Tyrone County include ambulatory care patients for specialty 420.

6.   From the beginning of 2008/09, the Quarterly Outpatient Activity Return (QOAR) replaced the KH09 (Part 1) as the source of data relating to outpatient activity.  As a consequence of this new methodology, the collection of data on scheduled and cancelled clinics has been replaced with the collection of data on appointments cancelled by both hospitals (hospital cancellations) and patients (could not attend or CNAs).  The definition of a did not attend (DNA) has been amended to also include CNAs on the day of the appointment.  As a result of this amendment, DNA figures for 2008/09 are not directly comparable with those published in previous years.

7.   During 2008/09, a number of patients were treated as part of Integrated Clinical Assessment and Treatment Services (ICATS). ICATS became an official service in the Trauma & Orthopaedics specialty on 01/10/07.  A number of other services that are provided through an ICATS type model were operational during 2008/09.  Activity at these services are included in the outpatient attendance figures for 2008/09.

8.   During 2008/09 Health and Social Care Trusts in Northern undertook a process of reclassifying a number of outpatient services in the Mental Health Programme of Care, from a consultant led to a non consultant led model of service delivery.  As a consequence of these reclassifications, data relating to activity within these services are no longer included within the outpatient data contained in this publication.

9.   Altnagelvin Area Hospital held a total of 425 emergency theatre sessions in 2008/09. The patients treated within these sessions are recorded in the table, however as the sessions are used by various specialties and can not be assigned to a specific specialty, these sessions are excluded from the total theatre sessions held.

10.  Excludes planned consultant clinics held in A&E departments.  These are recorded under specialty 180.

11.  Activity data is included for hospitals having a Minor Injuries Unit.

12.  Information relating to new cases seen at Genito-Urinary (GUM) clinics throughout Northern Ireland is only collected by the hospitals listed.  Data on GUM clinics cancelled by both hospitals and patients was not available.

13. Figures relating to people attending for epidemiological treatment are included under 'Other Conditions'.

14. Category A – immediately life threatening calls.

15. Category B – serious but not immediately life threatening calls.

16. 18 minutes for Eastern Board (rural) and 21 minutes for Northern, Southern and Western Boards (sparsely populated).

17. Category C – not immediately life threatening or serious calls.

18. Workforce figures exclude bank staff, home helps (due to the variable nature of their employment) and staff with a whole-time equivalent of less than or equal to 0.03.

19. From the quarter ending September 2008, HSC Trusts in Northern Ireland reclassified outpatient activity in specialty 501 (Obstetrics) as specialty 510 (Obstetrics Ante Natal).

20. Information relating to Compulsory Admissions under the Mental Health (NI) Order 1986 to Causeway Hospital for the quarters ending 31/12/08 and 31/03/09, and Lagan Valley PNU and Downshire Hospital for the quarter ending 31/03/09 are not available.

21. Following recent ONS guidance on data disclosure, cells with a value between 0 and 4 will now be anonymised with an astrix. In addition, where the anonymised cell can be deduced from the totals, the next smallest cells will also be anonymised.

22. Recording and collection of reasons for cancellation commenced at the beginning of 2008/09. These data are published as experimental statistics.

23. Due to the disparate coverage of coding of reasons for cancellation within HSC Trusts, data users should use caution in the analysis of these data. For example, the number of appointments recorded as being cancelled for a particular reason may be due to coding issues rather than being indicative of actual activity.

General Footnote: Available and Occupied beds are shown by their specialty. In some cases, patients from a different specialty will at times occupy these beds. In these cases the patients will be shown against the specialty of their consultant. As a result some anomalous figures will occur in this publication particularly with regard to throughput and particularly with regard to smaller specialties.

## Specialties in each Hospital during 2008/2009

| Hospital | Specialties |
|---|---|
| **Hospital** | **Specialties** |
| Alexandra Gardens | Mental Ilness, Old Age Psychiatry |
| Altnagelvin | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Oral Surgery, Restorative Dentistry, Orthodontics, Neurosurgery, Thoracic Surgery, Anaesthetics, Pain Management, General Medicine, Haematology (Clinical), Palliative Medicine, Cardiology, Dermatology, Genito-Urinary Medicine, Nephrology, Neurology, Rheumatology, Paediatrics, Paediatric Neurology, Geriatric Medicine, Obstetrics, Obstetrics (Ante Natal), Gynaecology, Well Babies (Paediatrics), General Practice (Other), Mental Illness, Clinical Oncology, Radiology, Chemical Pathology |
| Antrim | General Surgery, Ear, Nose & Throat, Oral Surgery, Orthodontics, Accident & Emergency, Anaesthetics, Pain Management, General Medicine, Gastroenterology, Haematology (Clinical), Palliative Medicine, Cardiology, Dermatology, Infectious Diseases, Nephrology, Neurology, Medical Oncology, Rheumatology, Paediatrics, Geriatric Medicine, Obstetrics, Gynaecology, Obstetrics (Ante Natal), Obstetrics (Post Natal), Well Babies (Obstetrics), General Practice (Other), Clinical Oncology, Chemical Pathology, Joint Consultant Clinics |
| Ards | General Surgery, Urology, Ear, Nose & Throat, Ophthalmology, Plastic Surgery, Accident & Emergency, General Medicine, Haematology (Clinical), Cardiology, Dermatology, Thoracic Medicine, Nephrology, Paediatrics, Gynaecology, General Practice (Other), Mental Illness, Old Age Psychiatry |
| Armagh Community | General Surgery, Trauma & Orthopaedics, Ear, Nose &Throat, Ophthalmology, General Medicine, Gastroenterology, Cardiology, Dermatology, Paediatrics, Obstetrics (Ante Natal), Gynaecology |
| Banbridge | General Surgery, Urology, Ear, Nose &Throat, Pain Management, General Medicine, Endocrinology, Cardiology, Neurology, Rheumatology, Paediatrics, Geriatric Medicine, Gynaecology, Obstetrics(Ante Natal), Chemical Pathology |
| Bangor | General Surgery, Urology, Ear, Nose & Throat, Ophthalmology, Accident & Emergency, General Medicine, Haematology (Clinical), Cardiology, Dermatology, Thoracic Medicine, Gynaecology, General Practice (Other) |
| Belfast City | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Plastic Surgery, Thoracic Surgery, Accident & Emergency, Anaesthetics, Pain Management, General Medicine, Gastroenterology, Endocrinology, Haematology (Clinical),  Clinical Genetics, Palliative Medicine, Cardiology, Dermatology, Thoracic Medicine, Nephrology, Medical Oncology, Neurology, Rheumatology, Geriatric Medicine, Gynaecology, Clinical Oncology, Radiology, Other |

| | |
|---|---|
| Cancer Centre | Urology, General Medicine, Gastroenterology, Haematology (Clinical), Palliative Medicine, Medical Oncology, Clinical Oncology |
| Braid Valley | General Medicine, Palliative Medicine, Geriatric Medicine |
| Carrickfergus | General Surgery, General Medicine, Gynaecology |
| Causeway | General Surgery, Urology, Pain Management, General Medicine, Cardiology, Dermatology, Neurology, Paediatrics, Obstetrics, Gynaecology, Obstetrics (Ante Natal), Well Babies (Obstetrics), General Practice (Other), Mental Illness, Old Age Psychiatry, Haematology, Chemical Pathology, Genito-Urinary Medicine |
| Craigavon Area | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Oral Surgery, Restorative Dentistry, Paediatric Dentistry, Orthodontics, Thoracic Surgery, Accident & Emergency, Anaesthetics, Pain Management, General Medicine, Gastroenterology, Endocrinology, Haematology (Clinical), Palliative Medicine, Cardiology, Dermatology, Thoracic Medicine, Rehabilitation, Neurology, Rheumatology, Paediatrics, Geriatric Medicine, Obstetrics, Gynaecology, Obstetrics (Ante Natal), Chemical Pathology, Well Babies (Paediatrics), General Practice (Other), Clinical Oncology |
| Bluestone (formerly Craigavon PNU) | Mental Illness, Child & Adolescent Psychiatry, Old Age Psychiatry |
| Daisy Hill | General Surgery, Ear, Nose & Throat, Ophthalmology, Oral Surgery, Thoracic Surgery, Accident & Emergency, Pain Management, General Medicine, Gastroenterology, Endocrinology, Haematology (Clinical), Cardiology, Dermatology, Genito-Urinary Medicine, Nephrology, Neurology, Paediatrics, Gynaecology, Obstetrics (Ante Natal), Obstetrics (Post Natal), Obstetrics, Well Babies (Paediatrics), General Practice (Other), Mental Illness, Geriatric Medicine |
| Dalriada | General Practice (Other) |
| Downe | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Accident & Emergency, General Medicine, Gastroenterology, Dermatology, Thoracic Medicine, Rheumatology, Paediatrics, Obstetrics, Geriatric Medicine, Gynaecology, General Practice (Other), Obstetrics (Ante Natal) |
| Downshire | Mental Illness, Old Age Psychiatry |
| Erne | General Surgery, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Oral Surgery, Orthodontics, Anaesthetics, Pain Management, General Medicine, Haematology (Clinical), Palliative Medicine, Cardiology, Dermatology, Neurology, Rehabilitation, Rheumatology, Paediatrics, Geriatric Medicine, Obstetrics, Gynaecology, Obstetrics (Ante Natal), Well Babies (Paediatrics) |
| Forest Lodge (Recorded under Musgrave Park) | Learning Disability |

| | |
|---|---|
| Forster Green | Neurology, Child & Adolescent Psychiatry |
| Gransha | Paediatrics, Mental Illness, Child & Adolescent Psychiatry, Old Age Psychiatry |
| Holywell | Mental Illness, Old Age Psychiatry, Child & Adolescent Psychiatry, Psychotherapy |
| Kilkeel (formerly Mourne) | General Surgery, General Medicine, Endocrinology, Gynaecology, Obstetrics (Ante Natal), Obstetrics (Post Natal) |
| Knockbracken | Mental Illness, Forensic Psychiatry, Old Age Psychiatry |
| Lagan Valley | General Surgery, Urology, Ear, Nose & Throat, Ophthalmology, Neurosurgery, Accident & Emergency, General Medicine, Endocrinology, Dermatology, Thoracic Medicine, Rheumatology, Paediatrics, Geriatric Medicine, Obstetrics, Gynaecology, Obstetrics (Ante Natal), Well Babies (Paediatrics), General Practice (Other) |
| Lagan Valley PNU | Mental Illness, Old Age Psychiatry |
| Lakeview (formerly (Stradreagh) | Learning Disability |
| Longstone | Learning Disability |
| Lurgan | Rehabilitation, Dermatology, Geriatric Medicine, Paediatric Neurology |
| Mater | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Oral Surgery, Accident & Emergency, Anaesthetics, Pain Management, General Medicine, Cardiology, Dermatology, Obstetrics, Gynaecology, Obstetrics (Ante Natal), Well Babies (Obstetrics), Mental Illness, Old Age Psychiatry, Haematology, Joint Consultant Clinics |
| Mid-Ulster | General Surgery, Ear, Nose & Throat, Oral Surgery, Orthodontics, General Medicine, Gastroenterology, Haematology (Clinical), Palliative Medicine, Dermatology, Nephrology, Neurology, Rheumatology, Paediatrics, Obstetrics, Gynaecology, Obstetrics (Ante Natal), General Practice (Other), Joint Consultant Clinics |
| Moyle | General Surgery, Ear, Nose & Throat, General Medicine, Gastroenterology, Palliative Medicine, Rheumatology, Paediatrics, Geriatric Medicine, Gynaecology, Obstetrics (Ante Natal), Obstetrics (Post Natal), Joint Consultant Clinics |
| Muckamore Abbey | Learning Disability, Paediatrics |
| Mullinure | Geriatric Medicine |

| | |
|---|---|
| Musgrave Park | Trauma & Orthopaedics, Anaesthetics, Rehabiltation, Rheumatology, Geriatric Medicine, Learning Disability |
| NWIH (formerly Roe Valley Inpatients) | Geriatric Medicine |
| RBHSC | Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Paediatric Dentistry, Neurosurgery, Plastic Surgery, Paediatric Surgery, Cardiac Surgery, Anaesthetics, General Medicine, Audiological Medicine, Thoracic Surgery, Haematology (Clinical), Cardiology, Dermatology, Infectious Diseases, Nephrology, Paediatrics, Medical Oncology, Paediatric Neurology, Haematology |
| Robinson Memorial | General Practice (Other) |
| Roe Valley (Outpatients) | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, General Medicine, Cardiology, Dermatology, Paediatrics, Geriatric Medicine, Gynaecology, Obstetrics (Ante Natal) |
| Royal Maternity | Paediatrics, Obstetrics, Well Babies (Paediatrics), Obstetrics (Ante Natal), Joint Consultant Clinics |
| Royal Victoria | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Oral Surgery, Restorative Dentistry, Paediatric Dentistry, Orthodontics, Neurosurgery, Plastic Surgery, Cardiac Surgery, Thoracic Surgery, Anaesthetics, General Medicine, Gastroenterology, Endocrinology, Thoracic Medicine, Haematology (Clinical), Audiological Medicine, Rehabilitation, Cardiology, Dermatology, Infectious Diseases, Genito-Urinary Medicine, Nephrology, Neurology, Paediatrics, Clinical Neuro-physiology, Rheumatology, Geriatric Medicine, Dental Medicine Specialties, Gynaecology, Radiology |
| Shaftesbury Square | Psychotherapy |
| South Tyrone | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Pain Management, General Medicine, Endocrinology, Gastroenterology, Haematology (Clinical), Palliative Medicine, Cardiology, Dermatology, Thoracic Medicine, Nephrology, Neurology, Paediatrics, Rheumatology, Geriatric Medicine, Gynaecology, Obstetrics, General Practice (Other), Obstetrics (Ante Natal) |
| St. Luke's | Mental Illness, Old Age Psychiatry |
| Thompson House | Neurology |
| Tyrone & Fermanagh | Mental Illness, Child & Adolescent Psychiatry, Old Age Psychiatry |

| | |
|---|---|
| Tyrone County | General Surgery, Trauma & Orthopaedics, Ear, Nose &Throat, Ophthalmology, Oral Surgery, Anaesthetics, Pain Management, Palliative Medicine, Haematology (Clinical), Rehhabilitation, Cardiology, Dermatology, Neurology, General Medicine, Paediatrics, Geriatric Medicine, Gynaecology, Obstetrics (Ante Natal), Chemical Pathology, Rheumatology |
| Ulster | General Surgery, Urology, Trauma & Orthopaedics, Ear, Nose & Throat, Ophthalmology, Oral Surgery, Restorative Dentistry, Paediatric Dentistry, Plastic Surgery, Paediatric Surgery, Accident & Emergency, Anaesthetics, Pain Management, General Medicine, Haematology (Clinical), Palliative Medicine, Cardiology, Dermatology, Thoracic Medicine, Nephrology, Neurology, Paediatrics, Geriatric Medicine, Obstetrics, Gynaecology, Well Babies (Obstetrics), General Practice (Other), Clinical Oncology , Obstetrics (Ante Natal) |
| Waterside (Foyle) | Geriatric Medicine |
| Waterside (Altnagelvin) | Geriatric Medicine |
| Waveney | General Surgery, Ear, Nose &Throat, Orthodontics, Anaesthetics, General Medicine, Gastroenterology, Cardiology, Dermatology, Rheumatology, Paediatrics, Geriatric Medicine,  Gynaecology, Obstetrics (Ante Natal), Obstetrics (Post Natal), Joint Consultant Clinics |
| Whiteabbey | General Surgery, Ear, Nose &Throat, Accident & Emergency, Pain Management, General Medicine, Gastroenterology, Haematology (Clinical), Palliative Medicine, Cardiology, Dermatology, Rheumatology, Neurology, Paediatrics, Geriatric Medicine, Gynaecology, Obstetrics (Ante Natal),Obstetrics (Post Natal), Joint Consultant Clinics |
| Whiteabbey PNU | Mental Illness |
| Windsor House | Mental Illness, Psychotherapy, Old Age Psychiatry |
| Young People's Centre | Child & Adolescent Psychiatry |

**Hospitals Open Within Each Provider for All or Part of Year Ending 31 March 2009**

| | |
|---|---|
| **Belfast Health and Social Care Trust (Operational 1st April 2007)** | Alexandra Gardens, Belfast City, NI Cancer Centre(formerly Belvoir Park), Forster Green, Knockbracken,  Mater Infirmorum, Muckamore Abbey, Musgrave Park (now includes Forest Lodge), RBHSC, Royal Maternity,    Royal Victoria, Shaftesbury Square, Windsor House, Woodstock Lodge,    Young People's Centre |
| **Northern Health and Social Care Trust (Operational 1st April 2007)** | Antrim, Braid Valley, Carrickfergus, Causeway, Dalriada, Holywell, Mid Ulster, Moyle, Robinson Memorial, Waveney, Whiteabbey, Whiteabbey PNU |
| **South Eastern Health and Social Care Trust (Operational 1st April 2007)** | Ards, Bangor, Downe, Downshire, Lagan Valley, Lagan Valley PNU, Thompson House, Ulster |
| **Southern Health and Social Care Trust  (Operational 1st April 2007)** | Armagh Community, Banbridge, Craigavon Area, Bluestone (formerly Craigavon Area PNU), Daisy Hill, Kilkeel Primary Care Centre (formerly Mourne), Longstone, Lurgan, Mullinure, South Tyrone, St Luke's |
| **Western Health and Social Care Trust  (Operational 1st April 2007)** | Altnagelvin, Erne, Gransha, Lakeview (formerly Stradreagh), NWIH (formerly Roe Valley Inpatients), Roe Valley Outpatients, Tyrone County, Tyrone & Fermanagh, Waterside (Wards 1-4) |

# Hospital Specialties and the Programme of Care to which they should be allocated

Programmes of Care are divisions of healthcare, into which activity and finance data are assigned, so as to provide a common management framework. They are used to plan and monitor the health service, by allowing performance to be measured, targets set and services managed on a comparative basis. In total, there are nine Programmes of Care. However, only five of these are relevant to hospital activity. The relevant hospital specialties within each of the Programmes of Care are shown below.

**POC 1 - Acute Services**
100 General Surgery
101 Urology
110 T & O Surgery
120 ENT
130 Ophthalmology
140 Oral Surgery
141 Restorative Dentistry
142 Paediatric Dentistry
143 Orthodontics
150 Neurosurgery
160 Plastic Surgery
170 Cardiac Surgery
171 Paediatric Surgery
172 Thoracic Surgery
180 Accident & Emergency
190 Anaesthetics
191 Pain Management
300 General Medicine
301 Gastroenterology
302 Endocrinology
303 Haematology (Clin)
304 Clinical Physiology
305 Clinical Pharmacology
310 Audiological Medicine
311 Clinical Genetics
312 Clinical Genetics & Molecular Genetics
313 Clinical Immunology & Allergy
314 Rehabilitation
315 Palliative Medicine
320 Cardiology
330 Dermatology
340 Thoracic Medicine
350 Infectious Diseases
360 Genito-Urinary Medicine
361 Nephrology
370 Medical Oncology
371 Nuclear Medicine
400 Neurology
401 Clinical Neuro-Physiology
410 Rheumatology
420 Paediatrics
421 Paediatric Neurology

450 Dental Medicine Specialties
460 Medical Ophthalmology
502 Gynaecology
620 GP Other
800 Clinical Oncology
810 Radiology
820 General Pathology
821 Blood Transfusion
822 Chemical Pathology
823 Haematology
824 Histopathology
830 Immunopathology
831 Medical Microbiology
832 Neuropathology
900 Community Medicine
901 Occupational Medicine
990 Joint Consultant Clinics
999 Other

**POC 2 -Maternity and Child Health**
501 Obstetrics
510 Obstetrics (Ante Natal)
520 Obstetrics (Post Natal)
540 Well Babies (Obstetrics)
550 Well Babies (Paediatrics)
610 GP Maternity

**POC 4 Elderly Care**
430 Geriatric Medicine
715 Old Age Psychiatry

**POC 5 - Mental Health**
710 Mental Illness
711 Child & Adolescent Psychiatry
712 Forensic Psychiatry
713 Psychotherapy

**POC 6 - Learning Disability**
700 Learning Disability

# Definitions

### Average Available/Occupied Beds

The average number of available and occupied beds during the year in wards that are open overnight, measured at midnight. Hospitals may also have a number of beds in wards that are only open during the day. Beds reserved for day care admission or regular day admission are not included.

### Average Length of Stay

A measurement of the average length of time spent in hospital. Day Cases are excluded from the calculation.

Average Daily Number of Occupied Beds x Days in Year
-----------------------------------------------------------------------
Total Discharges, Deaths & Transfers to Other Hospitals

### *% Occupancy*

A measurement of the percentage of time that beds are occupied. Day cases are excluded from the calculation.

Average Daily Occupied Beds
------------------------------------  x 100
Average Daily Available Beds

### Throughput

A measurement of the average number of ordinary admissions treated in each available bed open overnight each year. Day Cases are excluded from the calculation.

  Total Discharges, Deaths & Transfers to Other Hospitals
-------------------------------------------------------------------------
           Average Number of Available Beds

### Turnover Interval

A measurement of the average length of time a bed open overnight remains unoccupied between ordinary admissions. Day Cases are excluded from the calculation.

Average Available Beds - Average Occupied Beds x Days in Year
-------------------------------------------------------------------------------
     Total Discharges, Deaths & Transfers to Other Hospitals

### Percentage Day Cases

The number of Day Cases is given as a percentage of all admissions.

Total Day Cases
-------------------------------------------------------------------------------------------  x 100
(Total Discharges, Deaths & Transfers to Other Hospitals) + Total Day Cases

**Elective Admission**

A patient for whom the decision to admit could be separated in time from the actual admission: whose admission (whether ordinary admission, day case or regular day/night admission) had been booked in advance. This excludes emergency admissions and maternity or delivery episodes.

**Ordinary Admission**

Ordinary admissions include both (a) patients admitted electively with the expectation that they will remain in hospital for at least one night, and (b) non-elective admissions (e.g. emergency admissions). A patient who is admitted with this intention but who leaves hospital for any reason without staying overnight is still counted as an ordinary admission. Day cases are not included.

**Day Case**

A patient admitted electively during the course of a day with the intention of receiving care who does not require the use of a hospital bed overnight and who returns home as scheduled. If this original intention is not fulfilled and the patient stays overnight, such a patient should be counted as an ordinary admission.

**Regular Day/Night Admission**

A patient who is admitted electively and regularly for a planned sequence of days or nights and who returns home for the remainder of the 24 hour period. This method of admission is particularly common for Renal Dialysis and Chemotherapy.

**Inpatient**

Ordinary admissions, day cases and regular day or night admissions.

**FCE - Finished Consultant Episode**

A consultant episode is the time a patient spends in the continuous care of one consultant. The episode can be finished because of discharge, death or transfer, either to another consultant or another hospital. As a result, a patient may have more than one FCE during a stay in hospital (if transferred to the care of another consultant).

**Discharges & Deaths**

This is the total count of ordinary admissions leaving hospital (either because of death, discharge or transfer to another hospital).

**Outpatient Services**

An outpatient service is a consultant led service provided by Health and Social Care Trusts to allow patients to see a consultant, their staff and associated health professionals for assessment in relation to a specific condition. Patients are not admitted into hospital for this assessment. Outpatient services are usually provided during a clinic session providing an opportunity for consultation, investigation and minor treatment. Patients normally attend by prior arrangement. Although a consultant is in overall charge, they may not be present on all occasions the clinic is held. They must, however, be represented by a member of their team.

**Outpatient Appointment**

An outpatient appointment is an administrative arrangement enabling patients to see a consultant, their staff and associated health professionals, following an outpatient referral.  Outpatient appointments relate to all appointments with a consultant led service, irrespective of the location in which the service is performed.

**New Attendance**

A new attendance is the first of a series or the only attendance at an outpatient service with a consultant or their representative following an outpatient referral.  In practice, most referrals will be seen as a consequence of a GP referral request; however, referrals may also be received from a range of other sources (see Appendix 1).  First attendances at an outpatient clinic that are initiated by the consultant, who has already seen the patient, are classified as review attendances i.e. following an attendance at an Accident & Emergency unit or following an inpatient admission.

**Review Attendances**

A review attendance is an attendance at an outpatient service following; a new outpatient attendance, a previous review attendance, an attendance at an Accident & Emergency unit, a domiciliary visit, or following an inpatient admission, for the same condition.  Essentially review appointments are all appointments that are not a first appointment.

**Did Not Attend (DNA'd)**

This is the number of patients who did not attend, and failed to give advance warning to the hospital, for an outpatient appointment. This includes patients who cancelled their outpatient appointment on the same day on which the appointment was scheduled. These should not be confused with those who could not attend and who did warn the hospital in advance (before the day on which the appointment was scheduled).

**Could not attend (CNA'd)**

This is the number of patients who did not attend, and gave advance warning to the hospital, for an outpatient appointment before the day of the scheduled appointment. These should not be confused with those who either did not attend without prior warning or those who could not attend and informed the hospital on the day on which the appointment was scheduled.  This does not include appointments cancelled as a result of the hospital being notified of the patient's death.

**Outpatient Appointment Cancelled by the Hospital**

This is the number of outpatient appointments that have been cancelled by the provider Health and Social Care Trust.  A cancelled appointment is one which was intended to be held but which did not occur.  Such cancellations do not include those cancelled by the patient (Could Not Attend), appointments the patient did not attend without giving prior notice (DNA) and appointments cancelled by the hospital as a result of the patient's death.

**Reasons for Cancellation**

An outpatient appointment may be cancelled by either the provider Health and Social Care Trust (a hospital cancellation) or the patient (patient could not attend – CNA).

Hospital Cancellations may occur for the following reasons:
- Consultant unavailable
- Medical staff / Nurse unavailable
- Patient treated elsewhere
- Consultant cancelled appointment
- Appointment rescheduled (brought forward)
- Appointment rescheduled (put back)
- Cancelled following validation / audit
- Administrative error by hospital
- Hospital transport not available

Patient Cancellations (CNA) may occur for the following reasons:
- Patient cancelled appointment as it is no longer required
- Patient cancelled but the appointment is still required
- GP cancelled appointment

If no reason for cancellation has been recorded, Trusts report this as 'No reason for cancellation recorded'.

If an incorrect reason for cancellation has been recorded, for example if one of the hospital cancellation reasons are recorded against a patient cancellation, Trusts report the reason for such cancellations as 'Incorrect reason for cancellation recorded'.

Cancellations due to the death of a patient are reported separately and should not be included within the figures for either Patient Cancellations (CNA) or hospital cancellations.

**Private Patient Attendances**

A private patient is one who has opted to have treatment outside the Health Service and has undertaken to pay for all expenses incurred, including treatment and accommodation costs. Private patient attendances relate to private patients who attend an outpatient appointment at a facility provided by a Health and Social Care Trust.

**Specialty**

A specialty is a particular branch of medicine or surgery. Each consultant is assigned a main specialty from a list recognised by the Royal Colleges and Faculties. Information is recorded against the specialty of the treating consultant.

**Attendances at Accident & Emergency Departments**

Accident & Emergency departments provide services for patients who arrive with urgent problems, generally without appointment. The departments may be either major units which provide 24 hour service, 7 days a week, or small 'casualty department' units. A follow-up attendance is any re-attendance, which does not involve appointments with a consultant or a member of his/her firm.

**Operating Theatre Session**

A period of operating time allocated to a consultant firm. If a theatre session and consultant firm are booked before the patients are identified this will be a scheduled theatre session. The total number of intended scheduled sessions may be equal to or less than the sum of scheduled sessions held and cancelled.

**Live/Still Birth**

A birth can be classified as 'live' or 'still'. A still birth is where, after a gestation period of at least 24 weeks, the baby shows no identifiable signs of life at delivery.

**Patient journeys**

Each patient conveyed is counted as an individual patient journey.

**Urgent Patient Journey**

An urgent transport request is defined as a request when a definite time limit is imposed such that the vehicle and crew must be despatched quickly, although not necessarily immediately, to collect a patient, perhaps seriously ill, on the advice of a doctor for admission to hospital.

**Timing of response times**

The **"clock starts"** when the following details of the call have been ascertained:

Caller's telephone number;
Exact location of the incident; and
Nature of the chief complaint (this may be prior to allocation of the despatch code).

The **"clock stops"** when the emergency response vehicle arrives at the scene of the incident.

## Explanatory Notes

**Source:** The data contained in this publication have been compiled from the quarterly Körner Aggregate Returns (KARs), which were introduced from 01 April 1988 and the QOAR (QOAR) introduced from 01 April 2008. They refer to all general, mental illness and learning disability hospitals along with their associated transport services. Any amendments notified by Providers after 21 August 2009 have not been included.

**Programmes of Care (POCs):** This bulletin has been structured on a POC basis. This should facilitate analysis by individuals with an interest in specific POCs. However, an overall NI summary section has also been included for those with a more generalist perspective.

Activity has been grouped into POCs on the basis of the main specialty of the consultant in charge of the patient. In a small number of cases, this may lead to differences between the strict POC and the specialty of the consultant in charge. An example of this would be patients in a hospital ward reserved exclusively for the younger physically disabled who would be included in the Acute Services POC when applying the specialty rule rather than the correct POC of Physical and Sensory Disability. However, the specialty rule will apportion activity to the correct POC in the vast majority of cases.

A significant number of tables in the 'NI Summary' section are not replicated for individual POC sections, either because the Korner return on which the table was based did not have a specialty breakdown or because the activity contained in the table is not relevant to that particular POC.

**Hospitals/Providers:** In accordance with the Review of Public Administration, with effect from the 01 April 2007, five new integrated Health and Social Care Trusts (Belfast, Northern, South Eastern, Southern and Western) replaced the previous eighteen provider Trusts in Northern Ireland. Tables have been presented based on the new Trust Areas.

**Rounding:** The data for individual hospitals on certain indicators (e.g., 'Average Available Beds') will not always sum to the Provider total or the overall NI total due to rounding. In addition, certain indicators (e.g. 'Throughput') have been derived from unrounded figures for greater accuracy. They may therefore differ slightly from values obtained through using rounded figures in the formulae.

**Data Availability/Format:** All of the data contained in the tables are also available on a quarterly basis and can be supplied by individual specialty or hospital/Provider if this level of detail is required (as in previous bulletins). In addition, data can be supplied in spreadsheet format (Microsoft Excel) in order to aid secondary analysis. The tables are also available at http://www.dhsspsni.gov.uk/index/stats_research/stats-pubs.htm for those with Internet access.
